Profile

As a dedicated and curious UX designer with a background in both interaction design and applied computer science, I have a solid technical understanding combined with a strong focus on user experience. I enjoy using data and design to develop innovative and user-friendly digital solutions that address real needs. I have a general interest in technology and am a quick learner when it comes to new software and work methods.

Qualities

- I am organized, meticulous, and always committed to meeting deadlines.
- I enjoy working with agile methodologies, where insights and continuous testing improve the solution.
- I work efficiently under time pressure, communicate well, and deliver high-quality results when interacting with both clients and colleagues.
- I am a positive and sociable person who thrives in cross-functional teams—a good team player with high integrity.

Education

Aug. 2022 – June 2025

**Bachelor's Degree in
Interaction Design, Kristiania
University College, Oslo**

- Specialization in user experience and interaction design for digital solutions.
- Understanding of interdisciplinary collaboration between design, technology, and business development.
- Skills in prototyping and testing user interfaces with a focus on usability.
- Expertise in design methods and user research through practical projects.
- Experience applying design theory to the development of integrated digital services.
- Knowledge of digital tools and technologies that support holistic service design and user-centered solutions.
- Knowledge of interaction psychology and how human behavior influences design choices.
- Development of digital content with a focus on accessibility and universal design.
- Analysis of user needs and user context to create targeted design solutions.
- Learning to integrate design processes with technological development to create seamless digital

experiences.

- Developing skills in effectively communicating design ideas to both technical and non-technical stakeholders.
- Learning about strategic design and how design thinking can drive innovation in digital products.

Aug. 2021 – April 2022

**Applied Computer
Technology, Oslo Met,
Oslo**

- Coding, logic, databases, and how the various components of the IT world are interconnected.
- Designing and developing technological solutions with a focus on usability for everyone.
- How to use computer technology to meet users' needs.
- Developing new websites, mobile apps, computer programs, or other solutions where the use of computer technology plays a key role in providing a good user experience.
- *Switched to the Interaction Design program at Kristiania University College.*

Aug. 2018 – June 2021

**General college entrance
qualification in Natural
Sciences, Oslo Upper
Secondary School**

Vocational program with a specialization in wilderness/forestry, and third-year advanced studies.

- Basic skills in Norwegian, social studies, mathematics, and natural sciences that provide broad academic competence.
- Communication skills, including written and oral communication, relevant for collaboration and presentations.
- Knowledge of historical, cultural, and social contexts to understand users' contexts.
- Understanding of technology and digital skills as a foundation for further studies in UX and interaction design.

Aug. 2016 – March 2018

**Academic Specialization
Program at Lambertseter
High School, Oslo**

Changed my major and enrolled in the Natural Sciences program at Lambertseter High School.

Work Experience

May 2024 – May 2025

**Employee (various
departments) Ayvens Norge AS,
Oslo**

Occasional part-time/project-based work alongside my studies. Assisted various departments, including marketing and credit/risk.

July 2023 – Oct. 2023

**Logistics Associate,
Wanda.space, Oslo**

Part-time employee while studying. Packed boxes according to the circular logistics principle.

- Goods transport and logistics flow according to delivery routes in Oslo and the surrounding area.
- Customer service and customer meetings at all pickup and delivery locations.
- Treatment and driving routes within tight time frames.

Feb. 2023 – Feb. 2023

**Customer service/vehicle preparation
at Tesla Norway, Sandvika**

Temporary position through Adecco.

July 2022 – Jan. 2023

**Customer reception and customer service at the
XPENG Motors Norway AS showroom, Oslo**

- Part-time position alongside my studies. 6-month assignment through Adecco.
- Greeted customers in the showroom with a focus on creating positive user experiences and addressing customer needs.
- Guided customers in product selection through personalized customer service.
- Handled customer inquiries professionally and resolved issues to ensure customer satisfaction and positive experiences.

June 2019 – Aug. 2022

**Customer Service Representative, etc.
CarNext.com Norge AS, Skedsmo**

- Part-time employee, temporary help, and summer job during several periods at CarNext.com (which has since closed its operations in Norway). CarNext.com was a used car auction and dealership owned by LeasePlan Norge AS.
- Main responsibilities included greeting customers, preparing vehicles, transporting vehicles to and from customers, handing over vehicles to customers, creating vehicle listings with descriptions and professional photography, and publishing them online.
